#### Why Us

- \* Small Size Batch.
- Individual Attention to Each Student.
- \* We take Regular Test.
- We prepare Students for Previous Year & Latest Pattern Based Questions.
- We have Provided Best Results.

SCO-77, TOP FLOOR, SEC-15D CHANDIGARH PH:- 7529000184

SECTION A

KXY

† 3.

A tank has three pipes — Pipe X, Pipe Y and Pipe Z attached. Pipe X and Pipe Z alone can fill the tank completely in 4 hours and 8 hours respectively. Pipe Y can empty the tank in 6 hours. Initially the tank is empty. The three pipes are operated in the following sequence. In the first hour, only Pipe X is opened. In the second hour, Pipes X and Y are opened. In the third hour, only Pipe Y is opened. In the fourth hour, Pipes Y and Z are opened. In the fifth hour, only Pipe Z is opened. This cycle of 5 hours is repeated. After how many hours will the tank be completely filled for the first time?

16 hours

X 7 2,

20 hours

(c)

3.5 hours

(d). The tank will never be filled

- 2. Sunil, Param and Vikas drive at 20 km/hr, 50 km/hr and 80 km/hr respectively. Sunil starts from Point A for Point B. Param starts from Point A, 2 hours after Sunil starts and Vikas leaves some time after Param from Point A. Both Param and Vikas overtake Sunil at the same instant. How many hours after Sunil does Vikas leave Point A?
  - (a) 4.5 hours

(b) 4.0 hours

(c) 3.5 hours.

(d) 2.5 hours NT 2022

Rekha made a new year's resolution to exercise. On January 1, at 7 AM, she went for a jog from her home to the nearby park and back, returning at 7:32 AM. On January 2, at 7 AM, she went jogging to the park, but this time she walked back. Consequently, she returned home at 7:40 AM. On January 3 too, she set out at 7 AM, but this time she walked both ways. At what time did she return home (assuming her jogging speed and her walking speed are fixed)?

- (a) Between 7:41 AM and 7:45 AM
- Between 7:53 AM and 7:57 AM (b)
- Between 7:49 AM and 7:53 AM (c)
- (d) Between 7:45 AM and 7:49 AM

32 Minute

- On buying a pen, the shopkeeper gives three refills free. On buying a pen and six refills, the shopkeeper gives additional four refills free. If the equivalent discount is the same in both cases, then how many refills will be equal in value to a pen?
  - (a)

  - (d)

**Directions** (Questions no. 5 to 7): Read the graph given below and answer the questions. The following graph represents percentage of graduated students placed from the three engineering colleges X, Y and Z over the period of time.

NT 2022

Directions (Questions no. 8 to 12): Based on the following information, answer the given questions.

In a one-day workshop, the following five researchers are invited: G, H, J, K and L. Each of the researchers will deliver a lecture of one hour. The five lectures need to be scheduled in five consecutive hours. The schedule for the lectures is also constrained by the following conditions:

H cannot deliver a lecture in any of the first three hours.

L must take the lecture in any of the hours before the lecture of H.

J must take the lecture in any of the hours before the lecture of G.

G must take the lecture in any of the hours before the lecture of K

- 8. Which of the following can be the order from first to fifth, in which five researchers deliver their lectures?
  - (a) G, K, L, J, H
  - (b) J, G, K, H, L
  - (c) J, G, K, L, H
  - (d) J, K, G, L, H
- 9. If K delivers the lecture in the fourth hour, then which of the following must be true?
  - (a) G delivers the lecture in the third hour •
  - (b) H delivers the lecture in the fifth hour
  - (c) J delivers the lecture in the first
  - (d) L delivers the lecture in the third hour

- 10. If J does not deliver the lecture in the first hour, then which of the following must be true?
  - (a) G does not deliver the lecture in the third hour
  - (b) H does not deliver the lecture in the fourth hour
  - (c) J delivers the lecture in the second hour.
  - (d) K does not deliver the lecture in the fifth hour
- 11. If H does not deliver the fifth lecture, then which of the following must be true?
  - (a). G delivers the second lecture
  - (b) J delivers the first lecture
  - (c) L delivers the fifth lecture
  - (d) K delivers the fifth lecture
- 12. If G delivers the third lecture, then which of the following is true?
  - (a) L is only one of the five researchers who can take the first lecture
  - (b) J is only one of the five researchers who can take the second lecture
  - (c) Any one of exactly three of the five researchers can take the second lecture
  - (d) Either one of exactly two of the five researchers can take the fifth lecture

13. In the following diagram, which number will replace the question mark?

- (a) 72
- (b) 63
- (c) 49.
- (d) 48
- 14. The height of a right angled triangle is increased by 20% and base is decreased by 10%. The change in the area of the triangle is:
  - (a) 10% increase
  - (b) 12% decrease,
  - (c) 8% increase
  - (d) 8% decrease

- 15. A watch slows by 3 seconds in 4 minutes. If the clock shows the right time at 8 AM, then what time will it show at 11 PM on the same day?
  - (a) 11:11:15.
  - (b) 10:48:45
  - (c) 10:48:15
  - (d) 10:49:45

8: A.M

- are standing in a queue. There are 5 people between Raj and Sameer and 8 people between Sameer and Vijay. If there are 3 people ahead of Vijay and 19 people behind Raj, then what could be the minimum number of persons in the queue?
  - (a) 37
  - (b) 27
  - (c) 26
  - (d) 28

- Maria tells her daughter, "I was of your present age when you were born."

  If Maria is 58 years old now, then what was the age of her daughter 10 years back?
  - (a) 15 years
  - (b) 19 years
  - (c) 21 years
  - (d) None of these

### Directions (Questions no. 18 to 21):

In a group of 200 people, 75 persons can play cricket or football but not hockey. 65 persons can play hockey or football but not cricket. 20 persons can play both football and hockey. 15 persons can play both cricket and football. 15 persons can play both hockey and cricket. 50 persons can play hockey and 5 persons can play all three games.

- 18. How many persons play exactly one game?
  - (a) 85
  - (b) 35.
  - (c) 30
  - (d) 145
- 19. How many persons do not play any game?
  - (a) 65
  - (b) 45.
  - (c). 75
  - (d) 35
- 20. How many persons play exactly two games?
  - (a) 30
  - (b) 35
  - (c) 40.
  - (d) 45
- 21. How many persons can only football?
  - (a) 20
  - (b) 25
  - (c) 15
  - (d) 30
- In a group of children, there are 5 girls and 7 boys. In how many ways can 6 children with equal number of boys and girls be selected for a play?
  - 200 (a)
  - (b) 250
  - (c) 300
  - (d) 350

- 23. Four persons P, Q, R and S are working in the same company. The sum of the incomes of P and Q is more than that of R and S together. The sum of the incomes of P and R is the same as the sum of the incomes of Q and S. Moreover, P earns half as much as the sum of the incomes of Q and S. Which one of the following persons has the highest income?
  - (a) P
  - (b) Q
  - (c) R
  - (d) S
- A student is practising some math problems. In the first hour he solves 3 problems, in the second hour he solves 5 problems, in the third hour he solves 7 problems and so on. What is the total number of problems solved by him in 10 hours?
  - (a) 110
  - (b) 120.
  - (c) 135
  - (d) None of these
- The cost price of an article X is 200% more than that of Y, and 75% less than that of Z. The selling price of the article X is 500% more than that of Z. If the profit on article X is twice that on Y, and is twice the loss on Z, then what is the ratio of profit on article Y to its cost price?
  - (a) 69:8
  - 29:4 (b)
  - (c) 81:8
  - (d) 63:4

- 26. Abhishek invests ₹ 10,000 at a simple interest of 6% per annum for y years. The interest is paid annually, of which Abhishek spends half and keeps the remaining in cash, in a box labelled B at home. To begin with, B had no money in it, and nothing else, except half of these interest incomes is added to the box. No money is removed from B. After y years, if the cash in B is ₹ 2,400, then y =
  - (a) 4 years
  - (b) 6 years
  - (c) 8 years
  - (d) 12 years
- 27. A rectangular floor of dimensions  $10' \times 8' \; (120'' \times 96'') \; \text{has to be tiled}$ using the same type of square tiles.
  Square tiles are available in various dimensions 1", 2", 3", 4", ..., 48".
  What is the size of the largest square tile that can be used to tile the floor completely, without breaking any tile?
  - (a) 32"
  - (b) 24"
  - (c) 12"
  - (d) 8"

- 28. The number of leap years from 1801 to 2000 are:
  - (a) 50.
  - (b) 48
  - (c) 47
  - (d) None of these
- 29. If R.A.C.E = -4.13.11.9 and C.O.L.U.M.N = 11.-1.2.-7.1.0, then B.R.A.C.K.E.T =
  - (a) 12.-4.13.11.4.9.-5
  - (b) 12.-4.13.11.3.9.-5
  - (c) 12.-4.13.11.4.9.-6
  - (d) 12.-4.13.11.3.9.-6
- 30. What is the missing number in the following sequence?

7, 22, 44, ?, 158

- (a) 84
- (b) 88,
- (c) 96
- (d) 114

- 31. Four friends P, Q, R and S live in the same locality. The house of Q is in the east of P's house but in the north of R's house. The house of R is in the west of S's house. S's house is in which direction of P's house?
  - (a) South-east
  - (b) North-west
  - (c) North-east
  - (d) Data is inadequate
- choose who their partners will be for study during the course; however, no pair of students may work together more than seven class periods in a row. Anish and Boman have studied together seven class periods in a row. Cathy and Dodo have worked together three class periods in a row. Cathy does not want to work with Anish. Who should be assigned to work with Boman?
  - (a) Neelam
  - (b) Anish
  - (c) Dodo
  - (d) Cathy

- 33. After completing a particular work, Sumeet and Suresh together earn ₹ 4,340. However, the earnings are to be divided in the proportion of work done by each of them. After the share is distributed, it is found that 8/15 of Sumeet's earnings is equal to 2/5 of Suresh's earnings. How much did Suresh earn (in ₹)?
  - (a) 1,860
  - (b) 2,480
  - (c) 1,736
  - (d) 2,604
- 34. The angle between the minute hand and hour hand of a clock at 8:20 is:
  - (a) 120°
  - (b) 130°
  - (c) 140°
  - (d) 110°
- 35. A bag contains 5 red, 4 green, 6 blue and 3 yellow balls. Two balls are drawn at random. What is the probability that none of the balls drawn is blue?
  - (a) 132/306
  - (b) 12/18
  - (c) 132/324,
  - (d) 164/324

- Ryan runs at a speed of 40 m/minute.

  Rohit follows him after an interval of 5 minutes and runs at a speed of 50 m/minute. Rohit's dog runs at a speed of 60 m/minute and starts along with Rohit. The dog reaches Ryan and then comes back to Rohit and continues to do so till Rohit reaches Ryan. What is the total distance covered by the dog in metres?
  - (a) 720
  - (b) 600
  - (c) 960
  - (d) 1200
- Two trains A and B are running in the opposite directions. Train A crosses a man standing on the platform in 27 seconds, while train B crosses the same man in 17 seconds. If they cross each other in 23 seconds, then the ratio of speed of train A to that of train B is:
  - (a) 3:2
  - (b) 1:4·
  - (c) 2:3
  - (d) 2:5

- 38. The number of positive integers not exceeding 100 and divisible by 3 or 5
  - is:
  - (a) 53
  - (b) 35
  - (c) 47
  - (d) 40
  - 39. In a basket, the ratio of Oranges, Guavas and Jackfruits is 2:3:5. Ram ate 60% of the fruits in the basket.

    40% of the Guavas are remaining in the basket. At least what percentage of Jackfruits did Ram eat?
    - (a) 44%
    - (b) 48%
    - (c) 36%
    - (d) 32%
    - 40. A six-digit number ABCDEF is reversed to get a new number FEDCBA. The two numbers are added to get the answer 48X374 (where X is a digit, not necessarily distinct from A, B, C, D, E and F). Find the value of X.
      - (a) 7
      - (b) 6
      - (c) 5.
      - (d) 4

SECTION B

41. Given below are two statements: one is labelled as Assertion (A) and the other is labelled as Reason (R):

Assertion (A):

Dioxins bio accumulate and are toxic at extremely low levels.

Reason (R):

Dioxins are created mainly by burning plastics and medical waste containing chlorine.

In the light of the above statements, choose the most appropriate answer from the options given below:

(a) Both Assertion (A) and Reason (R) are correct and Reason (R) is the correct explanation of Assertion (A).

(b) Both Assertion (A) and Reason (R) are correct, but Reason (R) is not the correct explanation of Assertion (A).

(c) Assertion (A) is correct, but Reason (R) is not correct.

(d) Assertion (A) is not correct, but Reason (R) is correct.

42. Given below are two statements: one is labelled as Assertion (A) and the other is labelled as Reason (R):

Assertion (A):

Ocean currents are sometimes referred to as the "heat pumps" or "thermal conveyers" of the planet.

Reason (R):

Ocean currents are responsible for about 40% of the heat exchanged between the tropics and the polar regions.

In the light of the above statements, choose the most appropriate answer

from the options given below:

(a) Both Assertion (A) and Reason (R) are correct and Reason (R) is the correct explanation of Assertion (A).

(b) Both Assertion (A) and Reason (R) are correct, but Reason (R) is **not** the correct explanation of Assertion (A).

(c) Assertion (A) is correct, but Reason (R) is not correct.

(d) Assertion (A) is not correct, but Reason (R) is correct.

- 43. Which of the following statements correctly describe biomes?
  - 1. Biomes are categorized by the most common growth forms of plants distributed across large geographic areas.
  - 2. The categorization of biomes also takes taxonomic relationships among organisms into account.
  - 3. Biomes categorization relies on similarities in the morphological responses of organisms to the physical environment.
  - 4. A biome includes similar biotic assemblages on distant continents, indicating similar responses to similar climate conditions in different locations.

In the light of the above statements, choose the most appropriate answer from the options given below:

- (a) 1, 2, 3 and 4.
- (b) 1, 2 and 4 only
- (c) 1, 3 and 4 only
- (d) 2, 3 and 4 only

- 44. Which of the following statements are part of India's strategy to combat climate change that was declared at the 26<sup>th</sup> Conference of Parties (COP26)?
  - 1. Develop non-fossil energy capacity to 500 gigawatt and meet 50% of its energy requirements from renewable energy by 2030.
  - 2. Reduce the total projected carbon emissions by one billion tonnes from now onwards till 2030.
  - 3. Reduce the carbon intensity of its economy by less than 45 per cent by 2030.
  - 4. Achieve the target of Net-Zero by 2070.

Choose the most appropriate answer from the options given below:

- (a) 1, 2 and 4 only
- (b) 1, 3 and 4 only
- (c) 2, 3 and 4 only
- (d) 1, 2, 3 and 4

- 45. When they come in contact with the target contaminant, Nanoparticles can detoxify or immobilize contaminants via a pump-and-treat process or in situ via a pump-an
  - 1. Nanoparticles, due to their extremely small size, can penetrate into small pores in the soil or sediment.
  - 2. By Brownian motion, nanoparticles move freely in soil to target sites.
  - 3. Nanoparticles either degrade the targeted complex molecule or adsorb to the contaminant to immobilize it.
  - 4. Nanoparticles can remain suspended in soil water for a very short period only and react with target molecules in situ processes.

In the light of the above statements, choose the most appropriate answer from the options given below:

- (a) 1, 2, 3 and 4
- (b) 1, 2 and 3 only
- (c) 1, 2 and 4 only
- (d) 2, 3 and 4 only

46. Match List I with List II and select the correct answer from the codes given below the lists:

List I
(Layers of atmosphere)

List II (Characteristics)

- A. Mesosphere
- 1. Reflects outgoing radio waves back to the Earth without the use of satellites,
  Auroras occur here
- B. Troposphere 2. Steady winds but no turbulence, commercial jets fly here
  - C. Thermosphere 3. Meteors burn due to friction from air molecules
  - D. Stratosphere 4. Temperature decreases with increasing altitude

Choose the most appropriate answer from the options given below:

	A	В	C	D
(a)	4	3	1	2
(b)	3	2	1	4,
(c)	3	4	2	1
(d)	3	4	1	2

- 47. Which of the following is not an extinct species?
  - (a) Olive Ridley sea turtle
  - (b) Dusky seaside sparrow,
  - (c) Hawaii 'ō'ō
  - (d) Great auk

- 48. Consider the following statements:
  - 1. During March 21 to September 22, the Northern Hemisphere tilts towards the Sun, while the Southern Hemisphere tilts away from the Sun.
  - 2. During September 22 to March 21,
    Northern Hemisphere tilts away
    from the Sun, while the Southern
    Hemisphere tilts towards the Sun.
  - 3. The Earth's inclination on its axis is 23.5 degrees from the equator.

Identify the correct statement/s.

- (a) 3 only
- (b) 1, 2 and 3'
- (c) 2 only
- (d) Both 1 and 2
- 49. Which of the following diseases are transmitted by polluted water?
  - 1. Diphtheria
  - 2. Poliomyelitis
  - 3. Typhoid
  - 4. Infectious hepatitis

Choose the most appropriate answer from the options given below:

- (a) 1, 3 and 4 only
- (b) 1, 2 and 4 only
- (c) 2, 3 and 4 only
- (d) 1, 2, 3 and 4

- 50. Arrange the chronologies of the following events:
  - 1. The Indian Councils Act
  - 2. The Indian Universities Act
  - 3. Criminal Law Amendment Bill
  - 4. Partition of Bengal

#### Codes:

- (a) 1, 2, 4, 3
- (b) 3, 4, 2, 1
- (c) 4, 3, 1, 2,
- (d) 2, 4, 3, 1
- 51. The Gandhi-Irwin Pact was signed on March 5, 1931. Which were the provisions of the pact?
  - Civil Disobedience prisoners not guilty of violence to be released.
  - 2. Immovable properties confiscated by the Government to be returned.
  - 3. Remittance of fines not already realized.
  - 4. The Indian National Congress might continue the Civil Disobedience Movement.

Which of the above mentioned provisions are correct?

- (a) 1 and 2 only
- (b) 2 and 3 only
- (c) 1, 3 and 4 only
- (d) 1 and 3 only,

- 52. Which is the correct chronology of the excavation of sites in the Indus Valley Civilization?
  - 1. Mohenjo-Daro
  - 2. Chanhudaro
  - 3. Harappa
  - 4. Lothal

Select the correct answer from the following:

- (a) 3, 1, 2, 4
- (b) 1, 3, 2, 4
- (c) 2, 1, 3, 4
- (d) 3, 4, 2, 1
- 53. Vardhamana Mahavira at the age of 28 began his quest for truth and practised for 12 years, and at the end of austerities he was known as:
  - (a) Kaivalya
  - (b) Maha Gosala
  - (c) Siddhartha
  - (d) Ghora Angirasa

- 60. The Masand system was abolished by:
  - Guru Arjan Dev Ji.
  - (b) Guru Tegh Bahadur Ji
  - Guru Hargobind Ji (c)
  - (d) Guru Gobind Singh Ji
- 61. After the decline of Napoleon, two French officers who joined Maharaja Ranjit Singh's service in 1822 were:
  - Duke of Wellington and Marshal Blücher
  - Captain Allard and Jean-Baptiste Ventura.
  - Louis-Nicolas Davout and Jean (c) Lafitte
  - Marcellin Marbot and Jean Danjou
  - Who was the founder of 'Nyaya' the system of logic?
    - Pururava
    - Gautama.
    - Arjuna
    - Vishwamitra

- 63. Consider the following statements:
  - 1. Maulavi Ahmadullah Shah was one of the central figures in the Revolt of 1857 in Awadh and Rohilkhand.
  - 2. He is said to have diplomatically avoided Sir Colin Campbell twice in pitched battle.
  - 3. British officers and military commanders have praised his military qualities.
  - 4. V.D. Savarkar has criticised the heroism of Maulavi Ahmadullah.

Which of the statements given above are correct?

- (a) 1, 2 and 3 only
- (b) 1, 2 and 4 only.
- (c) 1, 3 and 4 only
- (d) 2, 3 and 4 only
- 64. Arrange the following treaties and agreements in a chronological order:
  - 1. India-US Nuclear Deal
  - 2. Indo-Soviet Friendship Treaty
  - 3. Tashkent Agreement
  - 4. Shimla Agreement

Select the correct answer from the codes given below:

#### Codes:

- (a) 3, 2, 4, 1
- (b) 2, 3, 1, 4
- (c) 1, 4, 2, 3
- (d) 4, 1, 3, 2

- With reference to the powers of the President of India, consider the following statements:
  - 1. The President shall have the power to promulgate ordinance only when the Parliament is not in session and the ordinance ceases to have effect when the Parliament reassembles.

Which of the above statements are correct as per the MGNREG Act?

- (a) 1, 2 and 4 only
- (b) 1, 2 and 3 only
- (c) 1, 2, 3 and 4
- (d) 1, 3 and 4 only

80. Match List I with List II and select the correct answer from the codes given below the lists:

List I List II (Acts) (Aims)

- A. MRTP

  1. Maintenance of foreign exchange
- B. FEMA

  2. Promotion of industrial peace
- C. Industrial 3. Control of unfair trade practices
- D. Wealth Tax 4. Reducing the concentration of economic power

#### Codes:

(a) 1 2 3 4 (b) 3 4 2 1 (c) 2 4 1 3 (d) 3 1 2 4

81. According to the Union budget of India 2022 – 23, which of the following is/are correctly matched?

Deficit
Target
(% GDP)

1. Revenue deficit — 3.6

- 2. Fiscal deficit 6.4
- 3. Primary deficit 2.4
- (a) 1 and 3 only
- (b) 2 and 3 only
- (c) 1, 2 and 3,
- (d) 2 only

82. A geostationary satellite appears stationary relative to the Earth. Such a satellite appears stationary due to its zero relative velocity with respect to a place on the Earth. For such a satellite, the angular speed in terms of radians per hour is:

- (a) π
- (b)  $\pi/2$
- (c) \pi/6,
- (d) π/12

83. India successfully test-fired a new version of which supersonic cruise missile off the Odisha coast in January 2022?

- (a) BrahMos
- (b) Dhanush
- (c) Prithvi
- (d) Agni

84. An important observing campaign in the year 2022 – 23 is aiming to map the distribution of mysterious dark matter threading throughout the Universe, and understand the even more enigmatic dark energy driving it apart. Which of the following observatory/telescope will be involved in the observations?

- (a) James Webb Space Telescope
- (b) Vera C. Rubin Observatory, Chile
- (c) Himalayan Chandra Telescope, India
- (d) Keck Observatory, USA

- For generating 'Golden Rice' two genes 85. (encoding for phytoene synthase and beta-cyclase) were taken from a plant phytoene and one (encoding for desaturase) from a soil bacterium Erwinia uredovora for beta-carotene biosynthesis. The two plant genes were taken from which of the following plants?
  - (a) Chickpea
  - Wheat (b)
  - Daffodil (c)
  - Tomato (d)
- A Biotech firm Oxitec constructed mosquitoes genetically engineered Aedes aegypti, and got them released into the environment. Which of the following represents the main mandate of releasing genetically engineered mosquitoes into the environment?
  - (a) To suppress the populations of various insects/pests which are responsible for causing diseases in a variety of crops including cotton, corn and others
    - (b) To control viral diseases like zika, dengue, chikungunya and yellow fever for which mosquitoes are the carriers
