

SYMMETRIC RELATION

1. A is bigger than B, who is bigger than C.
D is bigger than E but not as big as F.
C is bigger than F.
2. Rahul is taller than Parkash but not as tall as Mohit. Sohit is taller than Naresh but not as tall as Parkash.
Who is the tallest?
3. Ashok is heavier than Gopal. Mahesh is lighter than Jayesh. Prashant is heavier than Jayesh but lighter than Gopal. Who among them is the heaviest?
4. Rahul is 14th from the top and 28th from the bottom in a queue. How many persons are there in the queue?
5. Mohan is 24th from the left and 14th from the right in a row. How many persons are there in the row?
6. In a row of 63 persons. Mohan is 18th from the left. Find Mohan's position from right end?
7. In a row a person is 19th from either end. How many persons are there in the row?
8. Rahul is 14th from the top and 28th from the bottom in a queue. How many more persons to be added so that the total strength become 80?
9. In an exam Rohan's rank 18th from the top and 21st from the bottom. If there are 8 persons absent and 10 students are failed. Find the total number of students.
10. If A is 10th from the left and B is 15th from the right. Find A's position from the right, if B is 19th from the left end.
11. In an exam Suman's rank 11th from the top and 31st from the bottom. If there are 6 persons absent and 9 students are failed. How many students are there who had given the exam?
12. In a class of 60, where girls are twice that of boys. Mohit ranked 17th from the top. If there are 8 girls ahead of Mohit, how many boys are after Mohit in the rank?
13. In a class of 72, where girls are twice that of boys. Rohan ranked 17th from the top. If there are 10 girls ahead of Rohan, how many boys are after him in the rank?
14. In a class boys and girls are 4:3. Among the boys Mohit is 18th from the last. Find the total number of students if there are 10 students are ahead of Mohit.
15. In a class boys and girls are 4:3. Among the boys Mohit is 18th from the last. Find the total number of students if there are 10boys are ahead of Mohit.
16. Sohan is 6th rank ahead of Rohit in a class of 60. if Rohit's rank 15 from the right. Find position of Sohan from the left end?
17. In a row of children, Rohini is 10th from the left and Suresh is 31st from the right. Find total no of students
18. In a row of children, Rohini is 10th from the left and Suresh is 31st from the right. Find maximum no of students
19. In a row of children, Rohini is 10th from the left and Suresh is 31st from the right. Find minimum no of students
